Reference Letter for Drinor Berisha

To Whom It May Concern,

I am pleased to write this letter of recommendation for Mr. Drinor Berisha. Drinor has worked with me in the Software Department at Apply AI for almost a year, where he served as a Full Stack Developer.

During his tenure with us, Drinor consistently demonstrated exceptional technical skills and a strong commitment to excellence. He played a pivotal role in developing our flagship product—a full-stack web application that generates customized CVs and cover letters based on user information and job requirements. His expertise in Vue.js, FastAPI, and PostgreSQL was instrumental in delivering a high-quality product that met our clients' needs.

Drinor is not only a highly skilled software engineer but also a team player who fosters a collaborative work environment. He is well-organized, thrives under pressure, and consistently meets project deadlines. His problem-solving abilities and attention to detail significantly contributed to the success of our projects.

One of Drinor's most admirable qualities is his dedication to customer satisfaction. He understands that the key to good business is happy clients, and he always goes the extra mile to ensure that our software solutions exceed expectations. Additionally, his positive attitude and willingness to support his colleagues make him a valuable team member.

I have no hesitation in recommending Drinor for any position related to software development. I am confident that he would be an asset to your organization, bringing both technical expertise and a collaborative spirit.

If you wish to discuss my experience working with Drinor further, please feel free to contact me at the email address provided below.

Sincerely,
Petrit Avdylaj
CEO @ Apply AI
